This Complaint to assess Mandatory Penalties pursuant to California Water Code (CWC) Section 13385(h) and/or (i) is issued to the State of California Central Plant Operations, (hereafter Discharger) based on a finding of violations of Waste Discharge Requirements Order No. 95-117 and Order No. R5-2002-0016 (NPDES No. CA0078581).

The Executive Officer of the Central Valley Regional Water Quality Control Board (Regional Board) finds the following:

1. CWC Section 13385(h) and (i) requires assessment of mandatory penalties and states, in part, the following:

   CWC Section 13385(h)(1) requires the Regional Board to assess a mandatory penalty of three thousand dollars ($3,000) for each serious violation.

   CWC Section 13385 (h)(2) states for purposes of this section, a “serious violation” means any waste discharge that violates the effluent limitations contained in the applicable waste discharge requirements for a Group II pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 20 percent or more or for a Group I pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 40 percent or more.

   CWC Section 13385(i)(1) requires the Regional Board to assess a mandatory penalty of three thousand dollars ($3,000) for each violation, not counting the first three violations, if the discharger does any of the following four or more times in any period of six consecutive months.

   1. Violates a waste discharge requirement effluent limitation.
   2. Fails to file a report pursuant to Section 13260.
   3. Files an incomplete report pursuant to Section 13260.
   4. Violates a toxicity effluent limitation contained in the applicable waste discharge requirements where the waste discharge requirements do not contain pollutant-specific effluent limitations for toxic pollutants.

3. Order No. 95-117 included, in part, the following effluent limitations:

   **B. Effluent Limitations:**

   1. The discharge shall not have a pH less than 6.5 nor greater than 8.5.
   2. The maximum temperature of the discharge shall not exceed 90 °F.

4. According to monitoring reports submitted by the Discharger, the Discharger had fifteen (15) non-serious violations of effluent limitations during the twenty-six-month period beginning 1 January 2000 and ending on 28 February 2002, as shown in the attached table. However, four of these violations are exempt from the mandatory minimum penalty under CWC Section 13385(i) (fall under the category of first three violations in any six consecutive month period). The amount of the mandatory penalty for these non-serious violations is therefore $33,000.

6. Order No. R5-2002-0016 includes, in part, the following effluent limitations:

   **B. Effluent Limitations:**

   1. The discharge shall not have a pH less than 6.5 nor greater than 8.5.
   2. The 30-day average discharge flow shall not exceed 9.0 mgd.
   3. The maximum temperature of the discharge shall not exceed 86 °F, nor exceed the natural receiving water temperature by more than 20 °F.

7. According to monitoring reports submitted by the Discharger, the Discharger had six (6) non-serious violations of effluent limitations during the twenty-four-month period beginning 1 March 2002 and ending on 31 March 2004, as shown in the attached table. However, two of these violations are exempt from the mandatory minimum penalty under CWC Section 13385(i) (fall under the category of first three violations in any six consecutive month period). The amount of the mandatory penalty for these non-serious violations is therefore $12,000.

8. The total amount of the mandatory penalty (violations of Order No. 95-117 and violations of Order No. R5-2002-0016) is **$45,000**.

9. Issuance of this complaint is exempt from the Provisions of the California Environmental Quality Act (Public Resources Code Section 21000, et. seq.), in accordance with Title 14, California Code of Regulations Section 15321(a)(2) (“Enforcement Actions by Regulatory Agencies”).
THE STATE OF CALIFORNIA CENTRAL PLANT OPERATIONS IS HEREBY GIVEN NOTICE THAT:

1. The Executive Officer of the Regional Board proposes that the Discharger be assessed a Mandatory Penalty in the amount of $45,000.

2. A hearing shall be held by the Regional Board, unless the Discharger agrees to waive the hearing and pay the mandatory penalty of $45,000 in full.

3. The Discharger may waive the right to a hearing. If the Discharger chooses to waive the hearing, the Discharger must complete and sign the attached waiver and return it and a check made payable to the State Water Resources Control Board for the full amount of the mandatory penalty to the Regional Board’s office at the letterhead address by 7 August 2004.
