This complaint is issued to Sierra Pacific Industries, Shasta Lake Division (hereafter Discharger) pursuant to California Water Code (CWC) section 13385, which authorizes the imposition of Administrative Civil Liability (ACL), CWC section 13323, which authorizes the Executive Officer to issue this complaint, and CWC section 7, which authorizes the delegation of the Executive Officer’s authority to a deputy, in this case the Assistant Executive Officer. This complaint is based on findings that the Discharger violated provisions of Waste Discharge Requirements (WDRs) Order No. R5-2003-0154 (NPDES No. CA0081400).

The Assistant Executive Officer of the California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board) finds the following:

1. The Discharger owns and operates a 100 million board foot sawmill in conjunction with a cogeneration in the City of Shasta Lake, in Section 36 T33N, R5W, MDB&M. Surface water drainage from the property is to an unnamed tributary, a water of the United States and a tributary to the Sacramento River via Churn Creek.

2. On 17 October 2003, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) adopted Waste Discharge Requirements Order No. R5-2003-0154 (NPDES No. CA0081400), to regulate discharges of process water and storm water runoff generated from the sawmill operations at the facility.

3. CWC section 13385(h) and (i) require assessment of mandatory penalties and state, in part, the following:

CWC section 13385(h)(1) states, “Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars ($3,000) shall be assessed for each serious violation.”

CWC section 13385 (h)(2) states, “For the purposes of this section, a ‘serious violation’ means any waste discharge that violates the effluent limitations contained in the applicable waste discharge requirements for a Group II pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 20 percent or more or for a Group I pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 40 percent or more.”
CWC section 13385(i)(1) states, “Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars ($3,000) shall be assessed for each violation whenever the person does any of the following four or more times in any period of six consecutive months, except that the requirement to assess the mandatory minimum penalty shall not be applicable to the first three violations:

A) Violates a waste discharge requirement effluent limitation.
B) Fails to file a report pursuant to Section 13260.
C) Files an incomplete report pursuant to Section 13260.
D) Violates a toxicity effluent limitation contained in the applicable waste discharge requirements where the waste discharge requirements do not contain pollutant-specific effluent limitations for toxic pollutants.”

4. CWC section 13323 states, in part:

“Any executive officer of a regional board may issue a complaint to any person on whom administrative civil liability may be imposed pursuant to this article. The complaint shall allege the act or failure to act that constitutes a violation of law, the provision authorizing civil liability to be imposed pursuant to this article, and the proposed civil liability.”

5. WDRs Order No. R5-2003-0154 include, in part, the following effluent limitations:

**B. Effluent Limitations (Discharge 001 and 002)**

1. The discharge of wastewater to the unnamed tributary in excess of the following limits is prohibited:

7. According to monitoring reports submitted by the Discharger, the Discharger committed two violations during the period beginning January 2004 and ending June 2008. Of the two violations, both are considered serious violations for total suspended solids and total recoverable lead, group II pollutants, that exceeded 20% or more of the permit limit. The mandatory minimum penalty for both of these serious violations is three thousand dollars ($3,000).

8. There are no other violations pertinent to CWC section 13385(h) that have been reported through June 2008. Therefore, the total amount of the mandatory penalty is six thousand dollars ($6,000).

9. Issuance of this Administrative Civil Liability Complaint to enforce CWC Division 7, Chapter 5.5 is exempt from the provisions of the California Environmental Quality Act (Pub. Resources Code § 21000 et seq.), in accordance with California Code of Regulations, title 14, section 15321(a)(2).

SIERRA PACIFIC INDUSTRIES, SHASTA LAKE DIVISION IS HEREBY GIVEN NOTICE THAT:

1. The Assistant Executive Officer of the Central Valley Water Board proposes that the Discharger be assessed an Administrative Civil Liability in the amount of six thousand dollars ($6,000).

2. A hearing on this matter will be held at the Central Valley Water Board meeting scheduled on 4/5 December 2008, unless the Discharger agrees to does either of the following by 17 October 2008:

3. If a hearing on this matter is held, the Central Valley Water Board will consider whether to affirm, reject, or modify the proposed Administrative Civil Liability, or whether to refer the matter to the Attorney General for recovery of judicial civil liability.
