NOTICE OF APPLICABILITY, RESOLUTION NO. R5-2003-0106, ST. GREGORY'S OLIVE OIL, LAKE COUNTY

Staff has received your \$400 filing fee and has reviewed your 1 August 2003 Report of Waste Discharge (RWD) for coverage under Resolution No. R5-2003-0106. Our review finds the RWD to be complete.

Discharge Description

The Discharger operates St. Gregory's Olive Oil at 5625 Gaddy Lane in Kelseyville, Lake County. The facility processes olive oil such that olives are washed, crushed into a paste like material, delivered to a macerator where the paste is separated from the oil, and then centrifuged into olive oil. The water used to wash the dust from the olives (less than 50 gallons per day) is discharged into the sanitary sewer system owned and operated by Lake County Sanitation District. Solids (husks, pumice, etc.) are transported by a licensed waste hauler to South Lake Disposal and Recycling in Lake County for appropriate disposal.

Conditional Waiver

Based on the information submitted in the RWD, the discharge as described above satisfies the general and specific conditions of Resolution No. R5-2003-0106 for the current amount of wastewater produced. Therefore, this letter serves as formal notice that Resolution No. R5-2003-0106 is applicable and waste discharge requirements for this facility are waived.

Enclosed is a copy of Resolution No. R5-2003-0106 and the associated monitoring and reporting program. As described therein, an annual report must be submitted by **1 February of each year**. If the discharge violates the terms or conditions of the waiver, the Regional Board may take enforcement action, including assessment of administrative civil liability. If the method of wastewater and/or solids disposal change from those described in the RWD, you must submit a new report of waste discharge. Please note that the waiver will expire on 11 July 2008, at which time you must submit a new RWD with filing fee to renew the waiver or you must cease the discharge.
