NOTICE OF APPLICABILITY

WAIVER OF REPORT OF WASTE DISCHARGE AND WASTE DISCHARGE REQUIREMENTS FOR SPECIFIC TYPES OF DISCHARGE WITHIN THE CENTRAL VALLEY REGION, COBB AREA COUNTY WATER DISTRICT RAINBOW DRIVE BRIDGE REPLACEMENT PROJECT LAKE COUNTY

On 21 August 2018, Cobb Area County Water District (CACWD) submitted a Notice of Intent (NOI) to obtain coverage under the *Waiver of Report of Waste Discharge and Waste Discharge Requirements for Specific Types of Discharge within the Central Valley Region*, Order R5-2013-0145 (the Waiver). The submittal contains all the information required to evaluate the applicability of the Waiver; therefore, the NOI is considered complete and the discharge meets the conditions of the Waiver. The discharge is hereby covered under the Waiver, Order R5-2013-0145-0113. Please include this number on all correspondence related to this discharge.

Project Location and Description

CACWD is constructing a new bridge to span over Kelsey Creek near 16075 Rainbow Drive, Cobb in Lake County. The existing bridge was damaged by rain and rendered unserviceable. The new bridge will restore the roadway network and allow placement of utilities along the bridge as part of a larger water system distribution project. Construction dewatering activities are potentially expected due to proximity to the creek and potential for high groundwater. The new bridge foundation will be constructed 10 feet outside the top of bank of the creek. Dewatering may not be required if construction is performed in late summer/fall when the creek is typically dry. The dewatering period will be limited to a few weeks in the 2019 construction season, between 15 June to 15 October. Encountered groundwater will be discharged on the project site, where approximately 0.14 acres comprising of native grass is available. Location of the construction activities is shown on Attachment A, which is attached hereto and is made part of this Notice of Applicability (NOA) by reference. The daily discharge volume is expected to be a maximum of 1,000 gallons per day. No additives or chemicals will be added to the discharged water.

Facility-Specific Requirements

Please review the attached Waiver documents and ensure that the discharge complies with the Conditions of Discharge contained in Attachment A of the Waiver. CACWD is responsible for compliance with the Waiver and must provide sufficient contractor oversight to ensure compliance and prompt reporting of any noncompliance.

The Water Quality Control Plan for the Sacramento River and San Joaquin River Basins, Fourth Edition, revised October 2011 (Basin Plan), designates beneficial uses, establishes water quality objectives, contains implementation plans and policies for protecting waters of the basin, and incorporates by reference plans and policies adopted by the State Water Resources Control Board. Pursuant to §13263(a) of the California Water Code (CWC), waste discharge requirements must implement the Basin Plan.

Document Submittals

All monitoring reports and other correspondence should be converted to searchable Portable Document Format (PDF) and submitted electronically. Documents that are less than 50 MB should be emailed to: centralvalleysacramento@waterboards.ca.gov.

To ensure that your submittal is routed to the appropriate staff person, the following information should be included in the body of the email or any documentation submitted to the mailing address for this office:

Facility Name: Rainbow Drive Bridge Replacement Project, Lake County		
Program: Non-15 Compliance	Order: R5-2013-0145-0113	CIWQS Place ID: 850426

Documents that are 50 MB or larger should be transferred to a CD, DVD, or flash drive and mailed to:

Central Valley Regional Water Quality Control Board
ECM Mailroom
11020 Sun Center Drive, Suite 200
Rancho Cordova, CA 95670

Now that the NOA has been issued, the Board's Compliance and Enforcement section will take over management of your case. Guy Childs is your new point of contact for any questions about compliance with the Waiver. If you find it necessary to make a change to your permitted operations, Guy will direct you to the appropriate Permitting staff. You may contact Guy at (916) 464-4648 or at guy.childs@waterboards.ca.gov.
