### NOTICE OF APPLICABILITY

#### **WAIVER OF WASTE DISCHARGE REQUIREMENTS FOR SMALL FOOD PROCESSORS AND RELATED AGRICULTURAL PROCESSORS WITHIN THE CENTRAL VALLEY REGION ORDER R5-2025-0002 RAYMOND CAMERA, JR., CAMERA BROTHERS, LLC, SAN JOAQUIN COUNTY**

On 21 February 2025, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) adopted the Conditional Waiver of Waste Discharge Requirements for Small Food Processors, Wineries, and Related Agricultural Processors within the Central Valley Region, Order R5-2020-0002 (the Waiver).

We are in receipt of your Notice of Intent (NOI), dated 12 March 2025, which stated that you intend to comply with Tier 1 conditions of the Waiver. Camera Brothers, LLC is a fruit washing facility located at 1455 Gillis Road, Stockton in San Joaquin County. The NOI states that less than 10,000 gallons of wastewater will be discharged and that the wastewater will be applied to land owned and operated by Raymond Camera, Jr. Tier 1 allows land application of up to 10,000 gallons of wastewater per year for irrigation of landscaping or crops and land application of residual solids associated with that volume of wastewater. Any process wastewater or residual solids generated in excess of those amounts must be disposed of off-site at an appropriately permitted facility. If you wish to land apply more wastewater or residual solids, you must submit a new application and the applicable fee and obtain coverage under Tier 2 or 3 of the Waiver prior to increasing the discharge volume.

Based on information provided in the NOI, we have determined that the discharge meets the required conditions for approval under the Waiver. You are hereby assigned **Order R5-2025-0002-0001**. A copy of the Waiver is enclosed and also available on the [Water Board's adopted orders web page](https://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/waivers/r5-2025-0002_res.pdf).

Please familiarize yourself with the contents of the Waiver, including the Conditions of Discharge (Waiver Attachment A) and Monitoring and Reporting Program (Waiver

Attachment B). Wine waste must be managed and discharged in accordance with the requirements contained in the Conditions of Discharge and with the information submitted in the NOI.

### **Salt and Nitrate Control Programs**

In May 2018, the Central Valley Water Board adopted Basin Plan amendments (Resolution R5-2018-0034) incorporating new programs for addressing ongoing salt and nitrate accumulation in the Central Valley (i.e., Salt and Nitrate Control Programs). The Basin Plan Amendments were revised by the Central Valley Water Board in 2020 with Resolution R5-2020-0057 and became effective on 17 January 2020. ([https://www.waterboards.ca.gov/centralvalley/board\\_decisions/adopted\\_orders/resolutions/r5\\_2020\\_0057\\_res.pdf](https://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/resolutions/r5_2020_0057_res.pdf))

Tier 1 facilities are exempt from compliance with the Salt and Nitrate Control Programs because the low flow volumes associated with Tier 1 are not anticipated to impact the quality of surface or ground waters.

### **Monitoring and Reporting**

Attachment B of the Waiver includes specific monitoring and reporting requirements that you must comply with, including routine monitoring and reporting to the Central Valley Water Board. Please review the Monitoring and Reporting Program closely and establish the appropriate record keeping system so that you are able to complete the required Annual Monitoring Report form, which is also contained in Attachment B of the Waiver

**By February 1 of each year**, the Annual Monitoring Report must be submitted to our office even if there is no discharge during the reporting year. The 2025 Monitoring Report is due by **1 February 2026**.

### **General Information and Requirements**

The Waiver includes specific and general conditions with which you must comply and you must maintain control over the discharge and operate in accordance with the information provided in your NOI and the Notice of Applicability.

Please review this Notice of Applicability carefully to ensure it completely and accurately reflects the facility name, location, and details of the proposed discharge. Failure to comply with the requirements of the Waiver may result in enforcement action as authorized by provisions of the California Water Code, which could include civil liability. Discharges of wastes not described in the Conditions of Discharge (Attachment A) of the Waiver is prohibited.

Please note that the Waiver will expire on 20 February 2025, after which you must do one of the following:

1. Submit a new NOI with a filing fee (if required) to obtain coverage under a subsequently adopted waiver.
2. Submit a NOI with a filing fee to apply for individual or general Waste Discharge Requirements, or
3. Cease the discharge.
