This Complaint is issued to the City of Davis (hereafter Discharger) pursuant to California Water Code (CWC) section 13385, which authorizes the imposition of Administrative Civil Liability, CWC section 13323, which authorizes the Executive Officer to issue this Complaint, and CWC section 7, which authorizes the delegation of the Executive Officer’s authority to a deputy, in this case the Assistant Executive Officer. This Complaint is based on findings that the Discharger violated provisions of Waste Discharge Requirements (WDRs) Orders 99-014, 5-01-067 and R5-2007-0132 (NPDES No. CA0079049).

The Assistant Executive Officer of the Central Valley Regional Water Quality Control Board (Central Valley Water Board) finds the following:

1. The Discharger owns and operates a municipal wastewater collection, treatment, and disposal system, and provides sewerage service within the City. Treated municipal wastewater is discharged to Willow Slough Bypass, a water of the United States, and tributary to the Yolo Bypass.

2. On 30 April 1999, the Central Valley Water Board adopted WDRs Order 99-014 to regulate discharges of waste from the WWTP. On 16 March 2001, the Central Valley Water Board adopted WDRs Order 5-01-067 which contained new requirements and rescinded WDRs Order 99-014.

3. Order No. 5-01-067 was petitioned to the State Water Board for review, and on 7 May 2003, the Central Valley Water Board and the City of Davis entered into a Stipulation for Order Resolving Petition for Review. The Stipulation stayed the effluent limitations and compliance schedule for section “C. Effluent Limitations after 1 January 2006” of Order 5-01-067 until the Board acted on remand. On 25 October 2007, the Board adopted WDRs Order R5-2007-0132, effective 14 December 2007, which contained new requirements and rescinded WDRs Order 5-01-067.

4. On 18 August 2008, Central Valley Water Board staff sent the Discharger a draft Record of Violations (ROV). The Discharger agreed with the violations listed in the draft ROV.

5. CWC sections 13385(h) and (i) require assessment of mandatory penalties and state, in part, the following:

CWC section 13385(h)(1) states,
Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars ($3,000) shall be assessed for each serious violation.

CWC section 13385 (h)(2) states,

For the purposes of this section, a “serious violation” means any waste discharge that violates the effluent limitations contained in the applicable waste discharge requirements for a Group II pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 20 percent or more or for a Group I pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 40 percent or more.

CWC section 13385(i)(1) states,

Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars ($3,000) shall be assessed for each violation whenever the person does any of the following four or more times in any period of six consecutive months, except that the requirement to assess the mandatory minimum penalty shall not be applicable to the first three violations:

A) Violates a waste discharge requirement effluent limitation.
B) Fails to file a report pursuant to Section 13260.
C) Files an incomplete report pursuant to Section 13260.
D) Violates a toxicity effluent limitation contained in the applicable waste discharge requirements where the waste discharge requirements do not contain pollutant-specific effluent limitations for toxic pollutants.

6. CWC section 13323 states, in part:

Any executive officer of a regional board may issue a complaint to any person on whom administrative civil liability may be imposed pursuant to this article. The complaint shall allege the act or failure to act that constitutes a violation of law, the provision authorizing civil liability to be imposed pursuant to this article, and the proposed civil liability.

7. WDRs Order 99-014 Effluent Limitations No. B.1., include, in part, the following effluent limitations: “Effluent (001, 002) from the wastewater treatment plant shall not exceed the following limits:"

8. WDRs Order 5-01-067 Effluent Limitations No. B.1, include, in part, the following effluent limitations in place through 1 January 2006: “Effluent (001, 002) from the wastewater treatment plant shall not exceed the following limits:"

9. According to the Discharger’s self-monitoring reports, the Discharger committed one (1) serious Group I violations of the above effluent limitations contained in Orders 99-014, 5-01-067 and R5-2007-0132 during the period beginning 1 January 2000 and ending 31 March 2008. The violation is defined as serious because measured concentrations of Group I constituents exceeded maximum prescribed levels by more than 40 percent on this occasion. The mandatory minimum penalty for this serious violation is three thousand dollars ($3,000).

10. According to the Discharger’s self-monitoring reports, the Discharger committed two (2) serious Group II violations of the above effluent limitations contained in Orders 99-014, 5-01-067 and R5-2007-0132 during the period beginning 1 January 2000 and ending 31 March 2008. These violations are defined as serious because measured concentrations of Group II constituents exceeded maximum prescribed levels by more than 20 percent on this occasion. The mandatory minimum penalty for these serious violations is six thousand dollars ($6,000).

11. According to the Discharger’s self-monitoring reports, the Discharger committed eight (8) non-serious violations of the above effluent limitations contained in Orders 99-014, 5-01-067 and R5-2007-0132 during the period beginning 1 January 2000 and ending 31 March 2008. One (1) of the non-serious violations is subject to mandatory penalties under CWC section 13385(i)(1) because this violation was preceded by three or more similar violations within a six-month period. The mandatory minimum penalty for this non-serious violation is three thousand dollars ($3,000).

12. The total amount of the mandatory penalties assessed for the cited effluent violations is twelve thousand dollars ($12,000). A detailed list of the cited effluent violations is included in Attachment A, a part of this Complaint.

13. Issuance of this Administrative Civil Liability Complaint to enforce CWC Division 7, Chapter 5.5 is exempt from the provisions of the California Environmental Quality Act (Pub. Resources Code section 21000 et seq.), in accordance with California Code of Regulations, title 14, section 15321(a)(2).
THE CITY OF DAVIS WASTEWATER TREATMENT PLANT IS HEREBY GIVEN NOTICE THAT:

1. The Assistant Executive Officer of the Central Valley Water Board proposes that the Discharger be assessed an Administrative Civil Liability in the amount of \textit{twelve thousand dollars ($12,000)}. 

2. A hearing on this matter will be held at the Central Valley Water Board meeting scheduled on \textbf{5/6 February 2009}, unless the Discharger does either of the following by \textbf{10 December 2008}:
