CITY OF MT. SHASTA WASTEWATER RECLAMATION PLANT**

SISKIYOU COUNTY

The City of Mt. Shasta (Discharger) owns and operates a wastewater reclamation plant and discharges an average flow of 0.80 mgd of treated domestic wastewater into the Sacramento River at a point within the Box Canyon Hydrologic Sub area (40° 16' 35.18" N, 122° 19' 6.98"). Discharge to the Sacramento River is prohibited during the recreation season (15 June through 14 September). During that time the treated water is disposed of at the Mt. Shasta Resort Golf Course or in a leachfield on U.S. Department of Agriculture, Forest Service land. The treatment system consists of headworks (Parshall flume, bar screen, comminutor and grit chamber), four oxidation/stabilization ponds, ballast lagoon dosing basin, dissolved air flotation system, intermittent backwash filter, chlorine contact chamber, dechlorination system and an effluent diffuser. The Discharger's mailing address is 305 North Mt. Shasta Boulevard, Mt. Shasta, CA 96067. The discharge is regulated under an existing National Pollutant Discharge Elimination System (NPDES) permit. The Discharger submitted a Report of Waste Discharge and requested renewal of the existing NPDES permit. A Cease and Desist order is also proposed for adoption to provide a compliance schedule for new copper and zinc effluent limitations. Staff recommends the Regional Water Quality Control Board adopt the NPDES permit and Cease and Desist order regulating the discharge from the facility.
