Regional Water Quality Control Board

From Olio Hunt

Re: The Proposed Ag Waiver Fee Increase to 2010-11 Budget

I'm a member of the Northeastern California Water Association (NECWA) and writing you in opposition to the proposed quality fee increase in the Governor's 2010-11 budget.

Our small coalition is mostly small farmers and ranchers and the proposed fee increases will severely impact our industries finances. We cannot continue paying such increases in taxes, fees, and penalties and continue in business. Please support NECWA and me in opposing the proposed ag water waiver fee increase.

Thank you for your support

Yours Truly,
Olio Hunt
