

October 6, 2010

Dear Mr. Longley,

I am writing to protest proposed ADDITIONAL water rate increases of 100% - 200% as as referred to in a story on News 10 last evening.

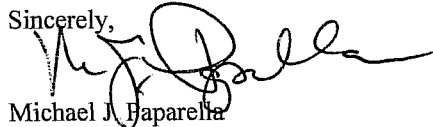

Where is this madness of tax (rate) increase going to stop? I am a retired person living on a fixed income and have already experienced Sac County water, sewer, garbage combined bill increases of 100% just since 2006! Despite every effort to decrease water usage, we now find ourselves paying over two times as much as just a few short years ago. This bimonthly bill now approximates my first home mortgage!

How can you even consider an increase in this economy when so many people (ourselves included) have lost resources like never before and are struggling to simply stay in our homes? California tax increases are eating up any discretionary income we have had and because of this we are seriously considering moving to another state.

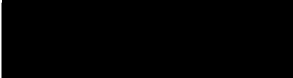

Enclosed is my recent payment history. Next, I guess we will have to consider burning up our lawns!

Please stop the arrogance and the madness. Just PLEASE STOP!!!!!!!!!!!!!!

Sincerely,

Michael J. Paparella
