Kathleen Cole Harder
Regional Water Quality Control Board
11020 Sun Center Drive Suite 200
Rancho Cordova, California 95670

Dear Kathleen:

I have read through the requirements of your proposed permit for the SRCSD.

It does not seem to me that there is a compelling argument for your Board to impose these requirements on the SRCSD at this time.

The cost magnitude of these requirements is onerous to the present and future users of the SRCSD facilities, and is tantamount to creating an unfair business practice for anyone living and doing business in the areas surrounding the SRCSD service area.

I use the Sacramento River for recreation and as a source of drinking water, and consider myself a lifelong environmentalist.

However, as a Sacramento business person and resident, I am in a constant struggle every day to keep things afloat. To add a burden like we are talking about here, would be a killer to Sacramento's ability to compete in our trading area, and on a broader scope.

Please pass my sentiments on to your Board, with **urging not to impose these permit requirements on SRCSD.**

Thank you for listening.

Very truly yours,

Greg Kassis
C.E.O.
