Subject: RE: Comments on City of Biggs WWTP predraft permit

Hi Greg,
Thanks for the response and sorry it took me so long to review it. It looks good, but I have one question:

What % removal does the facility achieve? Is there data from the previous permit term for % removal?

The reason I ask is the information is not included in the historical data table in the Fact Sheet, and it's important in determining whether the facility meets the equivalent to secondary criteria.

Sincerely,
Elizabeth
