Waste Discharge to Land Unit  
Sacramento River Watershed

**DATE:** 1 October 1998

**SIGNATURE:** 

**SUBJECT: REMEDIATION PLAN FOR THE WALKER MINE ACID MINE DRAINAGE  
ABATEMENT PROJECT**

Enclosed is a copy of the Remediation Plan for the Walker Mine Acid Mine Drainage Abatement Project. The original plan was sent to the State Board in August 1998 but apparently it was routed to the incorrect State Board division or section.

The purpose of the Remediation Plan is to limit the Regional Board's responsibilities for implementation of corrective action activities at the abandoned Walker Mine site. The Remediation Plan provides information on the operations and maintenance of existing remediation structures at the Walker Mine site.

We request that you prepare this Remediation Plan for the State Board's consideration and approval under Water Code Section 13397. If you have any questions, please call Patrick Morris at (916) 255-3121.
