NOTICE OF PUBLIC HEARING

concerning

ADOPTION OF THE FOLLOWING ORDERS:

- 1) NPDES PERMIT RENEWAL (NPDES NO. CA0081434)**
- 2) WASTE DISCHARGE REQUIREMENTS, AND**
- 3) TIME SCHEDULE ORDER**

For

CITY OF GALT

**WASTEWATER TREATMENT PLANT AND RECLAMATION FACILITY
SACRAMENTO COUNTY**

The City of Galt (Discharger) owns and operates the City of Galt Wastewater Treatment Plant and Reclamation Facility (Facility), a publicly owned treatment works (POTW) located at 10059 Twin Cities Road, Galt, California. The Facility provides sewerage service for the City of Galt and surrounding area, serving a population of approximately 24,000. The Facility provides tertiary treatment for up to 3.0 million gallons per day (MGD). Tertiary treated wastewater from the Facility is discharged to Laguna Creek, a water of the United States. Additionally, undisinfected secondary treated wastewater is applied to the Discharger's Agricultural Reuse area during growing seasons in order to irrigate non-food crops.

Discharges from the Facility are currently regulated by Waste Discharge Requirements Order R5-2010-0099 (NPDES No. CA0081434), issued by the Central Valley Regional Water Quality Control Board (Central Valley Water Board) on 23 September 2010. The Discharger requested separate permits for the land application and discharges to surface water. Two new Orders are proposed to: 1) renew the NPDES permit for discharges to Laguna Creek, and 2) adopt separate Waste Discharge Requirements for reclamation activities.

The proposed NPDES permit renewal includes new or revised effluent limitations for ammonia and zinc. In addition, the effluent limitations for aluminum, carbon tetrachloride, chlorodibromomethane, copper, cyanide, dichlorobromomethane, lead, iron, and manganese have been removed, because the discharge does not demonstrate reasonable potential to cause or contribute to an instream exceedance of the applicable water quality objectives. The proposed permit includes effluent limitations for arsenic, nitrate plus nitrite, and zinc that the Facility cannot immediately comply. Therefore, a Time Schedule Order is also proposed allowing a time schedule for the Discharger to comply with these effluent limitations.

The proposed Waste Discharge Requirements for reclamation activities are essentially the same as found in Order R5-2010-0099, except for minor changes to the monitoring requirements and updates related to recent upgrades to the Facility.

A public hearing concerning this matter will be held during the Central Valley Water Board meeting scheduled for:

DATE: 10/11 December 2015
TIME: 8:30 a.m.
PLACE: Central Valley Regional Water Quality Control Board Room
11020 Sun Center Drive, #200
Rancho Cordova, CA 95670

The designated parties for this hearing are as follows:

- City of Galt representatives

Only designated parties will have these rights: to call and examine witnesses; to introduce exhibits; to cross-examine opposing witnesses; to impeach any witness; and to rebut the evidence against him or her. All other persons wishing to testify or provide comments are interested persons and not designated parties. Such interested persons may request status as a designated party for purposes of this hearing by submitting such request in writing to the Central Valley Water Board no later than **5:00 p.m. on 19 October 2015**. The request must explain the basis for status as a designated party and in particular how the person is directly affected by the discharge.

Persons wishing to comment on this noticed hearing item shall submit testimony, evidence, if any, and/or comments to the Central Valley Water Board via email to **RB5S-NPDES-Comments@waterboards.ca.gov** no later than **5:00 p.m. on 19 October 2015**.
