

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL VALLEY REGION  
ORDER R5-2015-xxxx

**RESCINDING WASTE DISCHARGE REQUIREMENTS**

The California Regional Water Quality Control Board, Central Valley Region, finds that the following Board adopted Orders and Resolutions are no longer applicable for the reasons shown:

a. **CEDAR CREEK**

Waste Discharge Requirements Order No. 93-014, adopted on 29 January 1993, prescribes requirements for the discharge from the Cedar Creek Mobile Home Park, Shasta County (Facility). The Facility is comprised of three percolation/ evaporation ponds operated in series, with a total area of approximately one-half acre. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 93-014.

b. **CLARK PACIFIC, SPRECKLES SUGAR COMPANY**

Waste Discharge Requirements Order R5-2003-0047, adopted on 13 March 2003 prescribes requirements for the Former Spreckles Sugar Company in Woodland, Yolo County. Recently, the new operator, Clark Pacific, was regulated under Cease and Desist Order (CDO) R5-2012-0092 to remove all remaining precipitated calcium carbonate (PCC) resulting from past sugar operations. Clark Pacific completed all tasks required under the CDO and Compliance and Enforcement rescinded the CDO at the October 2015 meeting. As part of rescinding the CDO, staff reviewed the final soil sampling report and the recent groundwater annual monitoring report. All PCC and underlying soil has been removed down to native soils. Groundwater beneath the site is stable and with the source removed, staff agrees with the certified professional that the threat to water quality has been eliminated. Cleanup activities have been completed, and it is appropriate to rescind WDRs Order R5-2003-0047

c. **GRAEAGLE MEADOWS**

Waste Discharge Requirements Order 92-135, adopted on 26 June 1992, prescribes requirements for the discharge from Graeagle Meadows Townhomes, Plumas County (Facility). The Facility is comprised of a wastewater collection system with a septic and community leachfield. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 92-135.

d. **PARADISE PINES ELEMENTARY SCHOOL**

Waste Discharge Requirements Order No. 85-100, adopted on 31 May 1985, prescribes requirements for the discharge from the Paradise Pines Elementary School, Butte County (Facility). The Facility is comprised of a wastewater collection system with a lift station, package wastewater treatment facility and leach field disposal system. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 85-100.

e. **SANTA FE AGGREGATES, INC**

Waste Discharge Requirements Order No. 79-021, adopted on 26 January 1979, prescribes requirements for the discharge from the Santa Fe Aggregates Inc, Sanger Plant. The aggregate and concrete plants were permanently closed in November 2014. There will no longer be aggregate mining or washing of materials that may result in the discharge of wastewater. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 79-021.

f. **TUCKER OAKS**

Waste Discharge Requirements Order 87-187, adopted on 23 October 1987, prescribes requirements for the discharge from Tucker Oaks East Subdivision (Facility), Shasta County. The Facility is comprised of a wastewater collection system, wet well and pump station, septic tank and community leachfields. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 87-187.

g. **WHITEHAWK RANCH**

Waste Discharge Requirements Order No. 92-127, adopted on 26 June 1992, prescribes requirements for the discharge from Whitehawk Ranch, Plumas County (Facility). The Facility is comprised of a wastewater collection system, septic tanks, package plant, leachfields and land application area (seasonal spray irrigation). The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 92-127.

IT IS HEREBY ORDERED that the above orders are rescinded.

I, PAMELA C. CREEDON, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on, February 19, 2016

---

PAMELA C. CREEDON, Executive Officer
