NOTICE OF PUBLIC HEARING
concerning
DRAFT BOARD RESOLUTION AND
NOTICE OF DETERMINATION FOR INITIAL STUDY AND
MITIGATED NEGATIVE DECLARATION
for

AEROJET ROCKETDYNE, INC.
AEROJET WASTE CONSOLIDATION UNIT PROJECT

A public hearing concerning this matter will be held during the Central Valley Water Board meeting scheduled for:

Aerojet Rocketdyne has proposed construction of a 50-acre waste consolidation unit on top of a portion of the former White Rock Road North Dump. The waste consolidation unit (unit) will receive soils containing waste constituents from the Aerojet Solid Waste Landfill that is being removed under a separate project. Contaminated soils from cleanup projects on the Aerojet site would also be consolidated in the unit. The disposed soils will meet criteria as Class II wastes (non-hazardous). The waste consolidation unit is being designed and will operate to meet the requirements of a Class II landfill. The total volume of soil to be received will not exceed 1,000,000 cubic yards. The unit will operate for no more than 35 years. Once filled, or the time limit met, the landfill will be capped and closed according to Title 27 requirements. The closure of the former White Rock Road North dump will occur following capping of the unit. The operation and closure of the unit and the closure of the White Rock Road North dump will be regulated by waste discharge requirements issued by the Central Valley Regional Water Quality Control Board (Board). An Initial Study and Mitigated Negative Declaration (IS/MND) were circulated for agency and public review. Those documents found that the construction and operation of the unit will have a significant decrease in the air pollutant load over the already approved closure and removal plan for the Solid Waste Landfill. The project also has the benefit of capping approximately half of the landfilled area of the White Rock Road North dump and will include capping of the remaining landfilled areas upon closure. The documents also did not find other impacts that could not be readily mitigated. The Board will consider a resolution on the IS/MND.

DATE: 15/16 October 2020
