RESPONSE TO COMMENTS; TENTATIVE WASTE DISCHARGE REQUIREMENTS; CITY OF SACRAMENTO RECYCLING AND SOLID WASTE DIVISION; 28TH STREET LANDFILL; SACRAMENTO COUNTY

At a public hearing to be held in Rancho Cordova scheduled for 20/21 February 2025, the Regional Water Quality Control Board, Central Valley Region, (Central Valley Water Board) will consider adoption of revised Waste Discharge Requirements (WDRs) and revised Monitoring and Reporting Program (MRP) for the City of Sacramento's (Discharger) 28th Street Landfill (Facility) in Sacramento County.

This document contains responses to written comments received in response to the public notice circulated on 26 November 2024 to interested persons regarding the tentative WDRs and MRP. To receive full consideration written comments to the public notice were required to be received by the Central Valley Water Board by close of business on 27 December 2024.

Comments received were from (1) the Discharger.

The comments received are summarized in the enclosure, followed by responses from Central Valley Water Board staff and details of any changes made to the tentative WDRS and MRP in response to the comments received. In addition, staff has made minor changes to the tentative WDRs and to improve clarity and fix typographical errors.

The comments and our response to comments will be uploaded to our web page within the next few days. Based on the comments received, the tentative WDRs and MRP with the appropriate changes noted has been added to the agenda for the 20/21 February 2025 Board Meeting in Rancho Cordova, California on the uncontested calendar.
