

**17 APRIL 2026  
UNCONTESTED AGENDA ITEMS**

**AGENDA ITEM: 13**

**SUBJECT:**

The following are proposed permits for consideration of adoption. All agencies and dischargers concur or have offered no comments.

**BOARD ACTION:**

Consideration of NPDES Permit Renewal.

**BACKGROUND:**

**A) CITY OF RIO VISTA, NORTHWEST WASTEWATER TREATMENT FACILITY,  
SOLANO COUNTY**

The City of Rio Vista (Discharger) is the owner of the Northwest Wastewater Treatment Facility (Facility), located at 3000 Airport Road, Rio Vista, California. Inframark is the Facility operator. The Facility provides sewerage services for a small development northwest of the City of Rio Vista, serving a population of approximately 6,000. The Facility provides tertiary treatment for up to an average dry weather flow of 1.0 million gallons per day (MGD). Tertiary-treated wastewater from the Facility is discharged to the Sacramento River, a water of the United States, within the Sacramento-San Joaquin Delta.

Discharges from the Facility are currently regulated by Waste Discharge Requirements Order R5-2021-0004, issued by the Central Valley Regional Water Quality Control Board (Central Valley Water Board) on 18 February 2021. An Order is proposed to renew the NPDES permit. The proposed permit removes acute toxicity and electrical conductivity effluent limits and retains effluent limits for BOD, TSS, copper, pH, temperature, and total coliform. The proposed permit also includes updated effluent limitations for ammonia and zinc.

The tentative Order was issued for a 30-day public comment period on 15 January 2026 with comments due by 17 February 2026. Comments were received from the Discharger. The proposed NPDES permit has been modified to address the comments; details are provided in the Staff Response to Comments document included in the agenda package.

**RECOMMENDATION:**

Adopt the NPDES Permit.

**REVIEWS:**

Management Review:	
Legal Review:	

**BOARD MEETING LOCATION:**

City of Clovis Council Chambers  
1033 Fifth Street  
Clovis, CA 93612
