

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL VALLEY REGION**

**ORDER R5-2020-XXXX**

**RESCINDING WASTE DISCHARGE REQUIREMENTS**

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Central Valley Water Board adopted the following Orders which are no longer applicable for the reasons shown:

**A. MADERA COUNTY MAINTENANCE DISTRICT NO. 37; LA VINA WASTEWATER TREATMENT FACILITY; WASTE DISCHARGE REQUIREMENTS ORDER 95-157; MADERA COUNTY**

Waste Discharge Requirements Order (WDRs) Order 95-157, adopted on 23 June 1995, prescribes requirements for the Madera County Maintenance District No. 37 (Discharger), La Vina Wastewater Treatment Facility (WWTF) for a monthly average daily discharge flow of 86,000 gallons per day (gpd) to seepage pits. On 4 August 2020, a Report of Waste Discharge was submitted requesting coverage under the State Water Resources Control Board Water Quality Order 2014-0153-DWQ, *General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems* (General Order). On 21 October 2020, a Notice of Applicability was issued to the Discharger for coverage under the General Order. The Discharger was assigned enrollee number 2014-0153-DWQ-R5348. The Notice of Applicability carries over the existing flow limitation of 86,000 gpd to seepage pits. Therefore, it is appropriate to rescind WDRs Order 95-157.

IT IS HEREBY ORDERED that the above Orders are rescinded on the date of this order unless otherwise stated above.

I, PATRICK PULUPA, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on XX December 2020.

---

**PATRICK PULUPA**, Executive Officer
