**PUBLIC HEARING**

concerning

TENTATIVE ORDER  
AMENDING  
WASTE DISCHARGE REQUIREMENTS  
ORDER R5-2017-0077-01

FOR

LEHIGH SOUTHWEST CEMENT COMPANY  
CALAVERAS CEMENT COMPANY  
CALAVERAS CEMENT PLANT  
CALAVERAS COUNTY

On 8 February 2019, the Central Valley Water Board adopted Waste Discharge Requirements (WDR) Order R5-2019-0011 for the Calaveras Cement Plant (facility) which amended the compliance deadlines for the final closure of CKD-3 unit required by R5-2017-0077 to allow the Discharger to obtain permits from the U.S. Corps of Engineers and the California Department of Fish and Wildlife (CDFW) to excavate the cement kiln dust mining waste from the riparian and seasonal wetland areas at the toe of the unit and consolidate it under the CKD-3 cover. Specifically, the amended order R5-2017-0077-01 extended the 31 December 2018 compliance deadline for CKD-3 unit closure to 31 December 2020, and the related compliance deadline for the Final Closure and Post-closure Monitoring and Maintenance Plan to 31 March 2021.

However, the permitting process required that the project satisfies the requirements of the California Environmental Quality Act (CEQA) (Pub. Resources Code, § 21000 et seq.) which extended the permitting process. According to CDFW, the streambed alteration permit will not be available until 28 October 2020 which precludes the start of construction prior to the rain season (30 October to 30 April).

The attached tentative Order amends the WDR Order R5-2017-0077-01 by extending compliance deadlines. The **31 December 2020** compliance deadline for the closure of CKD-3 is extended to **31 December 2021**, and the related compliance deadline for the Final Closure and Post-closure Monitoring and Maintenance Plan from **31 March 2021** to **31 March 2022**.

A public hearing concerning this matter will be held during the Regional Water Board meeting, which is scheduled for:

DATE: 10/11 December 2020  
TIME: 8:30 A.M.
