

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

ORDER R5-2018-XXXX

RESCINDING WASTE DISCHARGE REQUIREMENTS ORDER R5-2010-0059 AND
TIME SCHEDULE ORDER R5-2010-0060-01

The California Regional Water Quality Control Board, Central Valley Region (hereinafter Central Valley Water Board), finds that Waste Discharge Requirements (WDR) Order R5-2010-0059 and Time Schedule Order (TSO) R5-2010-0060-01 are no longer applicable for the reasons below:

- Settled filter backwash wastewater from the South Feather Water and Power Agency's (hereinafter Discharger) Miners Ranch Water Treatment Plant (hereinafter Facility) is regulated pursuant to WDR Order R5-2010-0059 (National Pollutant Discharge Elimination System Permit No. CA0083143), adopted by the Central Valley Water Board on 27 May 2010, and TSO R5-2010-0060-01, adopted by the Central Valley Water Board on 27 May 2010 and amended on 31 July 2015. The Discharger has ceased the release of settled filter backwash wastewater into Miners Ranch Reservoir since 30 November 2017 and no longer operates as described in WDR Order R5-2010-0059 and TSO R5-2010-0060-01. The Discharger removed the existing outfall from the Facility, which provides assurance that a surface water discharge will likely not occur following rescission of WDR Order R5-2010-0059 and TSO R5-2010-0060-01. A site inspection was also completed on 15 February 2018 to observe operation of the backwash recycle system and verify that the outfall to Miners Ranch Reservoir was removed. Therefore, WDR Order R5-2010-0059 and TSO R5-2010-0060-01 are no longer necessary.

IT IS HEREBY ORDERED that Waste Discharge Requirements Order R5-2010-0059 and Time Schedule Order R5-2010-0060-01 are rescinded.

I, PAMELA C. CREEDON, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on XX June 2018.

PAMELA C. CREEDON, Executive Officer
