### **Proposed Resolution**

The State Water Resources Control Board's *Water Quality Control Policy for Siting, Design, Operation, and Maintenance of Onsite Wastewater Treatment Systems* (the "OWTS Policy") regulates small domestic OWTS. The OWTS Policy allows for the continued use of OWTS under Local Agency oversight, establishes minimum risk-based standards, and requires Local Agencies to assess water quality. Local Agencies may either directly implement the conservative low-risk standards in the OWTS Policy or develop a LAMP. When a local agency within the Central Valley Region prepares a LAMP, the Central Valley Water Board is required to review the LAMP to determine whether it is protective of human health and water quality.

On 7 April 2017, the Central Valley Water Board approved a LAMP for Placer County. On 11 June 2025, Placer County Environmental Health Division submitted a revised LAMP for the Board's approval. The Board staff has reviewed the revised LAMP and has concluded that it is consistent with the OWTS Policy. The Board staff has proposed that the Central Valley Water Board consider a Resolution approving the revised LAMP.

To conserve paper and reduce mailing costs, a paper copy of the proposed Resolution will be sent only to Placer County. All others may access a digital copy of the Resolution on the Central Valley Water Board's [Tentative Resolutions website](https://www.waterboards.ca.gov/centralvalley/board_decisions/tentative_Resolutions/), under the heading, "Discharger-Specific Resolution for Future Board Meetings," at

([https://www.waterboards.ca.gov/centralvalley/board\\_decisions/tentative\\_Resolutions/](https://www.waterboards.ca.gov/centralvalley/board_decisions/tentative_Resolutions/)).

The proposed [revisions](#) to the Placer County LAMP can be downloaded from the following website of Placer County Environmental Health Division:
