

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL VALLEY REGION**

**ORDER R5-2022-XXXX**

**RESCINDING WASTE DISCHARGE REQUIREMENTS**

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Board adopted the following Order, which is no longer applicable for the reasons shown:

**A) STATE OF CALIFORNIA, DEPARTMENT OF TRANSPORTATION-  
DISTRICT 6, PHILIP S. RAINE (TIPTON) SAFETY ROADSIDE REST AREA  
WASTEWATER TREATMENT FACILITY, WASTE DISCHARGE  
REQUIREMENTS ORDER NO. 83-006, TULARE COUNTY**

Waste Discharge Requirements Order 83-006, adopted on 28 January 1983, regulates the discharge from the Philip S. Raine (Tipton) Safety Roadside Rest Area Wastewater Treatment Facility (Facility). The Facility's existing treatment system consisted of aerated evaporation ponds. On 17 August 2020, the California Department of Transportation (CalTrans of Discharger) submitted a Report of Waste Discharge (RWD) requesting the Facility be enrolled under State Water Resources Control Board Order 2014-0153-DWQ, *General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems* (General Order). On 18 June 2021 an updated RWD was submitted. Additional information was provided in subsequent materials up to 5 July 2022. On 26 September 2022, a Notice of Applicability was issued for the Facility (enrollee number 2014-0153-DWQ-R5377) enrolling the Facility under the General Order. The Notice of Applicability establishes a flow limitation of 18,000 gallons per day (monthly average). The Discharger is participating in the Prioritization and Optimization Study for the Salt Control Program and joined the Tule Basin Management Zone for the Nitrate Control Program. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 83-006.

IT IS HEREBY ORDERED that the above Order is rescinded.

I, PATRICK PULUPA, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on 8/9 December 2022.

**TENTATIVE**

---

PATRICK PULUPA, Executive Officer
