
Central Valley Regional Water Quality Control Board

PREPARATION OF NOTICE OF APPLICABILITY

Waste Discharge Requirements General Order for In-situ Groundwater Remediation and Discharge of Treated Groundwater to Land

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

The Central Valley Water Board has prepared a draft Notice of Applicability for the Former Lewis Cleaners Site in the Davis Center for coverage under General Order No. R5-2015-0012, *Waste Discharge Requirements General Order for In-situ Groundwater Remediation and Discharge of Treated Groundwater to Land*. Coverage under the General Order will allow the property owner to add specific compounds to groundwater to break down pollution from past spills of chemicals on the property.

Project Title: Former Lewis Cleaners Remediation, The Davis Center

Project location: 670 G Street, Davis, Yolo County

Project Description:

A dry cleaning business formerly operated at 670 G Street. Tetrachloroethene is a dry cleaning chemical that has been found to pollute groundwater beneath the property. The project includes adding a cleanup mixture of bacteria, food-based supplement and iron to the groundwater to clean up the pollution. The bacteria are naturally occurring species that can completely break down tetrachloroethene. The iron can also break down tetrachloroethene.

The draft Notice of Applicability is available for review on the [Central Valley Water Board website](https://www.waterboards.ca.gov/centralvalley) at <https://www.waterboards.ca.gov/centralvalley>. The document can be found under the Tentative Orders page on the website.

Anyone wishing to comment on the draft Notice of Applicability is invited to send written comments to 11020 Sun Center Drive, Suite 200, Rancho Cordova, California, 95670-6114, by **June 19, 2020**. For more information, please call Nathan Casebeer at (916) 464-4665, or contact him by e-mail at Nathan.Casebeer@waterboards.ca.gov.
