TENTATIVE ORDER

WASTE DISCHARGE REQUIREMENTS ORDER R5 2020-####  
WASTE MANAGEMENT, INC.  
CALIFORNIA ASBESTOS MONOFILL, INC.  
CALAVERAS COUNTY

Waste Management, Inc. (Discharger), owns and operates California Asbestos Monofill, Inc. (Facility), located approximately 5 miles southeast of Copperopolis in Calaveras County. The facility is a former asbestos mine which operated from 1962 through 1987. In 1990, the open pit started operating as an unclassified inert waste landfill LU-1 for asbestos containing waste (ACW). In 1998, the facility started to accept shredded tires. The open pit was operated as an unclassified landfill until 2016 when it ceased to accept waste and the Discharger shifted their focus to facility closure.

The attached tentative Order provides the specifications and requirements for the closure of mining pit/LU-and for the Facility post-closure monitoring and maintenance. The Discharger is proposing to cover LU-1 WMU with at least two feet of rock reject, to grade the cover to maximum slopes of 3:1, and to allow mining influenced water to accumulate in the pit to form a shallow lake. This Order requires the maintenance of pit as a groundwater sink with the water level below 478 feet mean sea level. Furthermore, the tentative Order requires that the Discharger submits the Final Post-closure Monitoring and Maintenance Plan with cost estimates and establishes a financial assurance mechanism for this purpose.

A public hearing concerning this matter will be held during the Regional Water Board meeting, which is scheduled for:

DATE: 10/11 December 2020  
TIME: 8:30 A.M.
