

# *Overview of GeoTracker*

## *for CAF Dischargers and Consultants*

Rancho Cordova, January 26, 2017

Presented by Hamid Foolad, Ph.D.

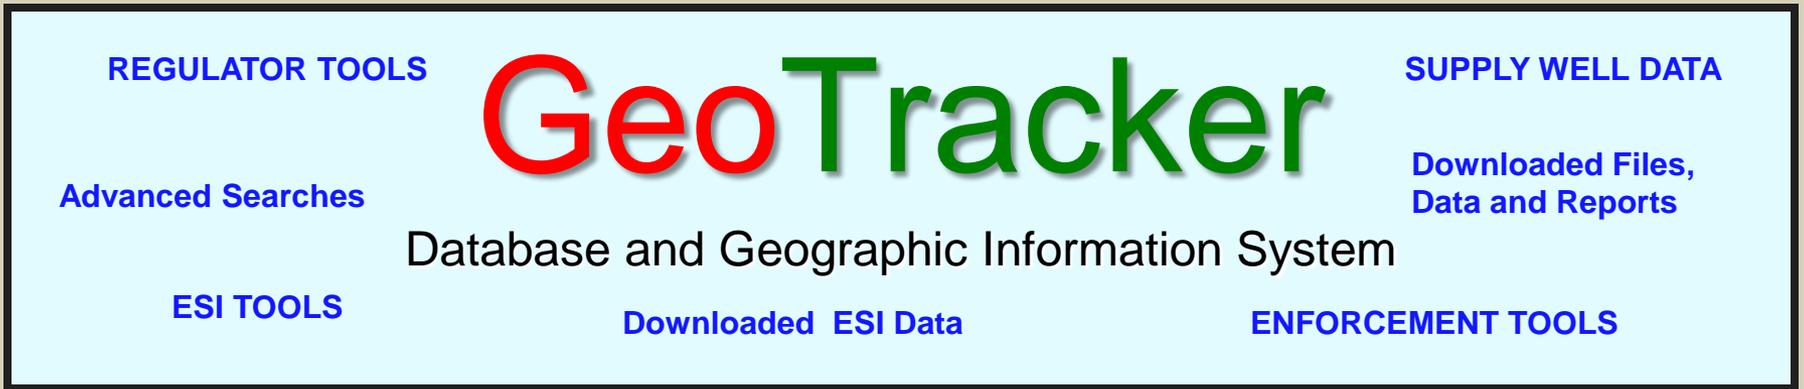

Hfoolad @ [waterboards.ca.gov](mailto:Hfoolad@waterboards.ca.gov)

(916) 341-5791

Input

Output

# GeoTracker (GT) went into production in 2001

## Three distinct groups of GT users:

- **Regulatory Agencies**....Regulators from various agencies get access from SWRCB to manage cases, review and receive reports and data and allocate workload
- **Responsible Parties / Consultants / Laboratories** - use the secure Electronic Submittal of Information (ESI) to upload data & reports  
[http://www.waterboards.ca.gov/ust/electronic\\_submittal/index.shtml](http://www.waterboards.ca.gov/ust/electronic_submittal/index.shtml)
- **General Public** - GeoTracker users such as home buyers, finance companies, environmentalists and researchers  
<http://geotracker.waterboards.ca.gov/>

# GT uses by regulatory agencies

<http://geotracker.waterboards.ca.gov/regulators>

- Entry of new Non-WDR projects into the GT database
- Setting priorities and managing case / project work load
- Compliance and enforcement
- Report generation for management (e.g. "Performance Measures")
- Electronic (paperless) storage of case / project information, including regulator activities, reports, documents

# GT provides Responsible Parties, Consultants, and Laboratories with:

- Easy secure access to GT
- Easy error checking of formatted data
- Easy uploading of formatted data (analytical data, survey data, depth-to-water data) and site maps, bore logs, and reports
- Easy management of their projects

# General public users of GT include:

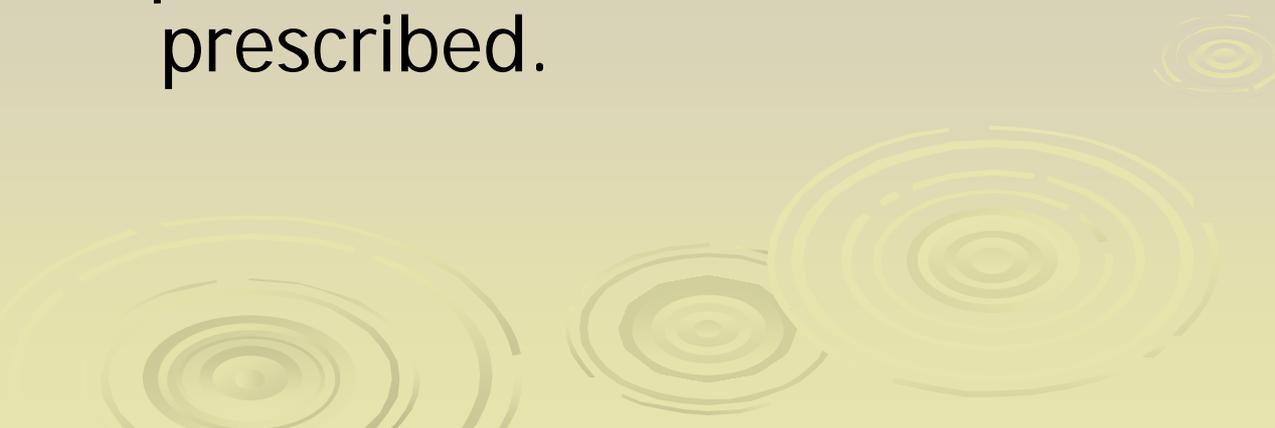

<http://geotracker.waterboards.ca.gov/>

- Researchers
- Environmentalists
- Bankers and real estate agencies
- Individual property owners / buyers
- Entities providing environmental disclosure reports

## Electronic Submittal of Information (ESI)

The State Water Resources Control Board is authorized...

To require a person who is submitting a report relating to a program administered by the board, to the board, a regional board, or a local agency, to submit the report in electronic format, as prescribed.

# ESI Data Requirements

- Analytical Data
- Survey / Locational Data
- Maps & Boring Logs
- Reports in PDF
- Graphing Tool on the Public GeoTracker,  
example graph:

[http://geotracker.waterboards.ca.gov/linechartxy.asp?global\\_id=SL18332752&locid=MW-37A&mymatrix=GW&combine=False&SHOWDTW=True&parlabel=CH4](http://geotracker.waterboards.ca.gov/linechartxy.asp?global_id=SL18332752&locid=MW-37A&mymatrix=GW&combine=False&SHOWDTW=True&parlabel=CH4)

## Data flows from sample collection to end users

### Collection of uniform, standardized data and reports for various types of sites such as:

- 41,400 Underground storage tanks (UST)
- 12,000 Non-UST cleanup sites such as industrial facilities and dry cleaners
- 7,000 Department of Defense Sites
- 2,400 Landfills and land disposal sites
- 6,000 Statewide WDR sites
- 2,000 Statewide CAF sites
- 5,700 Regional Board 3 Irrigated Lands

# Submittal of Analytical data

- EDF formatted data in a Zip file
- Application of various valid values
- File within the Zip can be either a flat file or a five file Format
- Instruction for EDF file Upload is @
- [https://geotracker.waterboards.ca.gov/esi/upload\\_instructions.asp?ul=EDF](https://geotracker.waterboards.ca.gov/esi/upload_instructions.asp?ul=EDF)

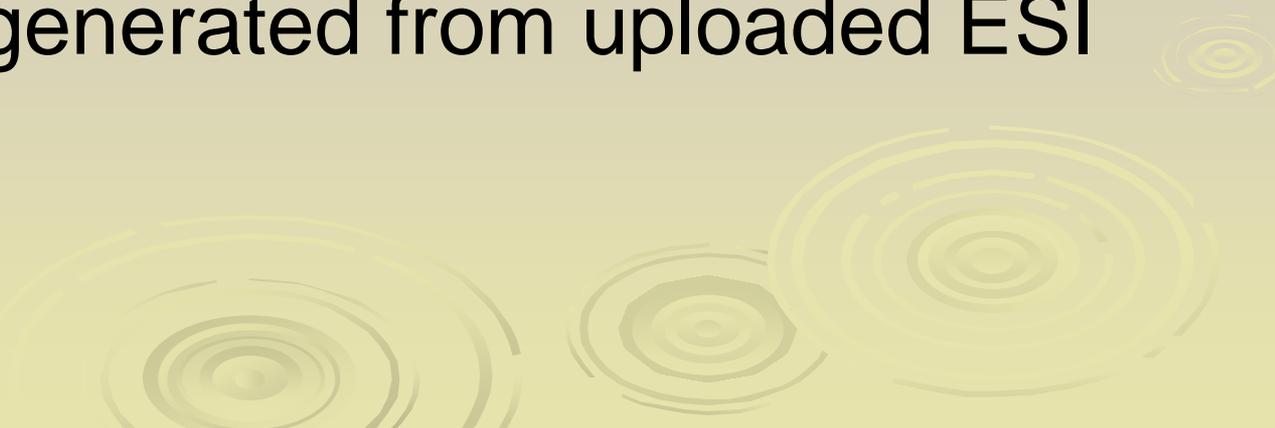

# Status of Uploaded Data

- Consultant ESI account
  - Upload tools
  - Status of uploaded data and reports
- Regulator responsibilities
- Public access
  - All "Received" reports can be viewed on the public screens of GT
- Automatic receipt of uploaded data

# Statuses of Uploaded Reports

- **Received**; By regulator or Auto-Received
- **Denied**; By regulator
- **Pending Reports**; up to 30 days from submittal date
- Only “**Received**” Reports/Data show on the public site of GeoTracker (other programs)

# Statewide searches of analytical data can be performed

- Sites / facilities can be viewed on GT's Google Maps-based map display
  - Regulator versions and public versions of reports are generated from uploaded ESI data
- 

# Public GT Screens

<http://geotracker.waterboards.ca.gov/>

The screenshot shows the GeoTracker website interface. At the top left is the CA .GOV logo. To its right is the text 'STATE WATER RESOURCES CONTROL BOARD' and the 'GEOTRACKER' logo. Below this is a dark blue navigation bar with a home icon, 'Tools', 'Reports', 'UST Case Closures', 'Information', and a contact icon. A search bar with a magnifying glass icon is positioned below the navigation bar. The main content area features the heading 'GeoTracker' in orange, followed by a paragraph describing the system's purpose and the types of sites it tracks. Below this is another paragraph explaining how the data is accessed. At the bottom, there is a footer with links for 'Back to Top', 'Conditions of Use', 'Privacy Policy', 'Accessibility', and 'Contact Us', along with a copyright notice for 2015 State of California.

## GeoTracker

GeoTracker is the Water Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. GeoTracker contains records for sites that require cleanup, such as Leaking Underground Storage Tank (LUST) Sites, Department of Defense Sites, and Cleanup Program Sites. GeoTracker also contains records for permitted facilities such as Irrigated Lands, Oil and Gas production, operating Permitted USTs, and Land Disposal Sites.

GeoTracker portals retrieve records and view integrated data sets from multiple State Water Board programs and other agencies. Users can view these data through a Google Maps GIS interface.
