

**Delta Regional Monitoring Program
Stakeholder Meeting**

12 May 2010

9:00 a.m. – 4:00 p.m.

CVRWQCB Office

11020 Sun Center Drive #200

Rancho Cordova, California 95670

Objective

To reinstate stakeholder involvement, begin implementation of the Regional Monitoring Program through a pilot project phase, and initiate technical work to address limitations with current monitoring and data management systems.

Agenda

Session I – 9:00 a.m. to 12:00 p.m.

The morning session is intended to provide an overview of the overall RMP strategy, the work and products to date and set the stage for the workgroup activities.

I. Welcome and Opening Remarks

Dorothy Rice, Executive Director, State Water Board

Pamela Creedon, Executive Officer, Central Valley Water Board

II. Overview of Draft RMP Plan and Overall Strategy

Meghan Sullivan, Central Valley Water Board

III. Summary of Existing Monitoring in the Delta
Central Valley Watershed Monitoring Directory

Thomas Jabusch, Aquatic Science Center

IV. Summary of Contaminants Synthesis Report

Mike Johnson, UC Davis Aquatic Toxicology Lab

V. Questions and Morning Wrap-Up

Session II – 1:00 to 4:00 p.m. Facilitated by **Brock Bernstein**

The afternoon session will review and discuss constraints in the existing monitoring and data management systems highlighted by the Contaminants Synthesis Report, with the goal of defining approaches for addressing these constraints. This session is to be attended by staff designated to participate in the RMP planning effort.

I. Discussion of Priority Issues Identified in Contaminants Synthesis

II. Develop a Strategy for Addressing Priority Issues

III. Additional Items

IV. Determine Next Steps and Additional Workgroup Meeting Dates
