

POTENTIAL ELEMENTS OF A SALT AND NITRATE MANAGEMENT PLAN

- **Changing the Basin Plan's Beneficial Use Classification System**
- **Specifically Delineating Water Bodies and/or Classes of Water Bodies**
- **Management Zone Concept**
- **Changing Existing Salinity Water Quality Objectives (WQOs)**
- **Adding Implementation Plans and/or Changing Existing Implementation Plans**
 - Compliance Evaluation
 - Variance; Schedules; Alternative Strategies
 - Provisions to Insure Adequate Drinking Water Supplies
 - In-Basin and Out-of-Basin Salt Containment and Disposal
- **Adopting New Policies**
 - Recycling
 - Climate Change
 - Extreme Weather Conditions (drought)
 - Recharge of Stormwater Runoff

SEEKING PUBLIC INPUT ON

- **Range of Project Actions**
- **Alternatives**
- **Reasonable Methods of Compliance**
- **Potential Significant and Cumulative Impacts**
- **Potential Mitigation Measures**
