

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
COLORADO RIVER BASIN REGION

ORDER NO. 85-32

WASTE DISCHARGE REQUIREMENTS
FOR
HAVASU PALMS MOBILE HOME AND RECREATIONAL VEHICLE PARK
Lake Havasu - San Bernardino County

The California Regional Water Quality Control Board, Colorado River Basin Region, finds that:

1. Havasu Palms, Inc. (hereinafter also referred to as the discharger), P. O. Box 78, Parker Dam, California, 92267, via the park owner, verified updated information in Finding No. 2 (below) on January 28, 1985.
2. The discharger is discharging a maximum of 20,000 gallons-per-day of domestic sewage from a mobile home and recreational vehicle park consisting of 92 mobile home spaces, 29 recreational vehicle spaces, two (2) restrooms and a laundry room. Sewage is routed through septic tanks and then pumped to oxidation basins (for disposal by infiltration and evaporation) located in the NE $\frac{1}{4}$, NE $\frac{1}{4}$ of Section 31, T4N, R26E, SBB&M.
3. The discharge from this mobile home and recreational vehicle park has been subject to waste discharge requirements adopted in Board Order No. 78-94.
4. There are no domestic wells within 500 feet of the sewage disposal facilities described in Finding No. 2 (above).
5. The discharger states that the wastewater disposal facilities are more than 200 feet from the high water line of the Colorado River.
6. The Water Quality Control Plan for the Colorado River Basin Region of California was adopted by the Regional Board on November 14, 1984. The Basin Plan contains water quality objectives for the Chemehuevi Hydrologic Unit.
7. The beneficial uses of the ground waters of the Chemehuevi Hydrologic Unit are:
 - a. Domestic supply
 - b. Agricultural supply
8. The Board has notified the discharger and interested agencies and persons of its intent to update waste discharge requirements for the discharge.
9. The Board in a public meeting heard and considered all comments pertaining to the discharge.

*replaced
by 90-010*

10. These waste discharge requirements govern an existing facility, which the discharger is currently operating, and therefore is exempt from the provisions of the California Environmental Quality Act in accordance with Section 15301 of Title 14, Chapter 3 of the California Administrative Code.

IT IS HEREBY ORDERED, the discharger shall comply with the following:

A. Discharge Specifications

1. Neither the treatment nor the discharge of wastewater shall create a pollution or a nuisance as defined in Division 7 of the California Water Code.
2. No wastewater other than domestic sewage shall be discharged into the sewage disposal system described in Finding No. 2 (above).
3. A minimum depth of freeboard of at least two (2) feet shall be maintained in the earthen basins.
4. Adequate measures shall be taken to assure that unauthorized persons and animal pets are effectively excluded from contact with the discharge.
5. Adequate measures shall be taken to assure that flood or surface drainage waters do not erode or otherwise render portions of the discharge facilities inoperable.
6. There shall be no discharge of wastewater within 200 feet laterally from the regulated high-water line of the Colorado River or within 200 feet of any domestic well.
7. Treated or untreated sludge, or similar solid waste materials, shall be discharged only at locations approved by the Regional Board.
8. There shall be no surface flow of wastewater away from the discharge facilities, and there shall be no direct discharge to any drainage channel or to Colorado River.
9. Treatment and discharge by ponding shall be conducted in such manner that there shall be no stranded or exposed sewage solids.
10. Treatment and discharge of wastewater shall be conducted by technical procedures which will maintain a surface aerobic environment.
11. Infiltration facilities shall be maintained and operated so as to maximize infiltration and minimize the increase in salinity of the infiltrating wastewater.
12. Facilities shall be provided in the event of pump and/or commercial power failure.

13. Septic tank cleanings shall be discharged only by a duly authorized service.

B. Provisions

1. Upon request from this Board's Executive Officer, the discharger shall furnish technical and/or monitoring reports on the treatment and discharge of wastes.
2. Prior to any modifications in this facility which would result in material change in the quality or quantity of wastewater discharged, or any material change in location of discharge, the discharger shall report in writing to the Regional Board.
3. In the event of any change in control or ownership of land or waste disposal facilities owned or controlled by the discharger, the discharger shall:
 - a. Notify the Board of such change; and
 - b. Transmit a copy of this Order to the succeeding owner or operator, and file a copy of the transmittal letter with this Board.
4. This Order supersedes Board Order No. 78-94.

I, Arthur Swajian, Executive Officer, do hereby certify the foregoing is a full, true and correct copy of an Order adopted by the California Regional Water Quality Control Board, Colorado River Basin Region, on March 13, 1985.
