Public Notice 7-13-15
NPDE Permit CA0104361
February 20, 2013

NOTICE OF PUBLIC HEARING

SPECIAL BOARD ORDER R7-2013-0029 AMENDING CEASE AND DESIST ORDER R7-2009-0061 ISSUED TO CITY OF HOLTVILLE, OWNER/OPERATOR, MUNICIPAL WASTEWATER TREATMENT PLANT,

The City of Holtville (Discharger) owns and operates a sewage collection system and wastewater treatment plant (WWTP) (hereinafter "Facility") that provides sewerage service to the City of Holtville. The Facility has a treatment capacity of 0.85 million gallons-per-day. The final effluent from the WWTP is discharged to the Pear Drain, a tributary to the Alamo River, and ultimately to the Salton Sea. The Pear Drain, the Alamo River, and the Salton Sea are waters of the United States. On June 21, 2006, the California Regional Water Quality Control Board, Colorado River Basin Region (Regional Water Board) adopted Waste Discharge Requirements and a National Pollutant Discharge Elimination System (NPDES) Permit to regulate the discharge of the treated municipal wastewater to the Pear Drain. The Permit is assigned NPDES Permit CA0104361, Board Order R7-2006-0050, which was to expire on June 21, 2011. On May 19, 2011, the Regional Water Board adopted Board Order R7-2011-0020, NDPEs Permit CA0104361, rescinding Board Order R7-2006-0050.

Among other requirements, Board Order R7-2006-0050 prescribed a final effluent limitation for Total Ammonia as Nitrogen, which became effective May 19, 2010, and was reestablished by Board Order R7-2011-0022. The Discharger is currently designing improvements to the WWTP to bring the ammonia discharges into compliance with Board Orders.

On September 17, 2009, the Regional Water Board adopted Cease and Desist Order (CDO) R7-2009-0061 to address violations of Board Order R7-2006-0050. On September 29, 2010, the Discharger, in a letter to the Assistant Executive Officer (AEO), requested that the Regional Water Board amend CDO R7-2009-0061 to extend the milestone deadlines specified therein to August 17, 2014. The Discharger stated that it would continue to work with funding agencies to secure funding for the design and construction of the WWTP improvements required to comply with Board Order R7-2006-0050. On January 20, 2011, Special Board Order R7-2011-0061 was adopted, granting the requested extension.

On February 7, 2013 the Discharger, in a letter to the Regional Water Board staff, requested that the Regional Water Board make a second amendment to CDO R7-2006-0050 to further extend completion dates of milestones, adjusting them as follows:

WWTP Upgrades			
Milestone	Milestone Description	Completion Date per R7-2011-0061	Requested Adjusted Completion Date
1	Complete WWTP Engineering Report	September 27, 2011	Milestone Completed
2	Complete Pollution Prevention Plan	November 27, 2011	Milestone Completed
3	Obtain and Secure Funding for Design, Bidding and Construction Costs	June 27, 2012	April 16, 2013
4	Complete Design of WWTP Improvements	March 27, 2013	December 31, 2013
5	Complete Bidding and Award of WWTP Improvements	June 27, 2013	March 31, 2014
6	Construction of WWTP Improvements	August 17, 2014	December 31, 2015
7	Achieve full compliance with Order R7-2006-0050 (NPDES Permit CA0104361)	August 17, 2014	December 31, 2015

The Discharger states that it is requesting these adjustments due to delays in obtaining funding and environmental clearances. The discharger also states that environmental clearance was obtained on January 4, 2013 and funding is pending.

In accordance with the requirements set forth in CWC Section 13385(j)(3)(C), this proposed Special Board Order revises CDO R7-2009-0061 to extend the milestone deadlines specified on page 5, Ordered Paragraph No. 1 for all Milestones.

The Regional Board will proceed with the public hearing as follows:

Date: Mach 21, 2013
Time: 9:00 a.m.
Location: California Regional Water Quality Control Board
Colorado River Basin Region Board Room
73-720 Fred Waring Drive, Suite 100
Palm Desert, CA 92260.

During the hearing, the public and any other person interested in this matter can provide the Regional Water Board with comments on this matter.

Persons wishing to file written comments on or objections to the proposed Special Board Order or any other aspects of this matter are required to do so prior to the public hearing, so that the Regional Water Board may consider the comments.

Comments must be mailed to the following address:

California Regional Water Quality Control Board
Colorado River Basin Region
73-720 Fred Waring Drive, Suite 100
Palm Desert, CA 92260

A copy of the proposed Special Board Order and CDO may be obtained from the Regional Board Office. The CDO is available via the Internet at:
