Project Description:

California Department of Transportation will repair two box culverts along State Route 111 to maintain safe roadway conditions for travelers. Project work involves removing

sediment from the inside the culvert boxes, repairing and replacing deteriorating concrete on wingwalls and culvert walls, sealing cracks in the walls, cleaning rust off exposed rebar, removing and replacing rebar, and applying a polyester concrete (silane waterproofing sealer) overlay to protect the surface of box floors.

Approximately 0.07 acres of temporary impacts to Waters of the U.S. (WOUS) are proposed across two sites due to accessing worksites, staging equipment and materials, and moving existing rock slope protection.

Anticipated Project Start and End Dates:

September 01, 2024 – October 31, 2024
