Applicant: United States Department of Interior, Bureau of Reclamation

Project Name: Holtville Treatment Wetlands Project

Receiving Water: Alamo River

Location: 115° 23' 58" W Longitude by 32° 49' 01" N Latitude
T 15S, R 15E, NW 1/4 of the SW 1/4 of Section 25, SBB&M

Project Description: The United States Bureau of Reclamation (USBR) proposes to assist the Citizen's Congressional Task Force on the New River (Task Force) to construct the Holtville Treatment Wetlands. The constructed wetlands pilot project will occupy approximately 30-acres of land adjacent to the Alamo River near the City of Holtville in Imperial County. The project will require the installation of an inlet structure to connect the Alamo River to the constructed wetlands, two outlet structures that will return the treated water to the river and placement of rip-rap material along the bank of the river near the inlet and outlet structures.

Action: Pending
