

**Date:**

May 25, 2007

**Applicant:**

California Department of Parks and Recreation (DPR)

**Project Name:**

Varner Harbor Dredging Project

**Receiving Water:**

Salton Sea

**Location:**

The proposed project will take place on the northeast shore of the Salton Sea in the Varner Harbor channel, near the City of North Shore, Riverside County, California, within Section 2 of Township 8 South, Range 11 East, SBB&M.

The project location is further described as 33° 30.14' N Latitude by 115° 55.00' W Longitude.

**Project Description:**

DPR proposes to remove accumulated sediment in the Varner Harbor channel, rebuild the channel's northern jetty and reinforce the southern jetty. Approximately 8,000 cubic yards of sediment would be removed from the channel and would be deposited on the adjacent beach north of the channel, a minimum of ten feet above the ordinary high water mark. The northern channel jetty would be reconstructed using 500 cubic yards of riprap, and the southern channel jetty would be reinforcement with 300 cubic yards of riprap. Approximately 0.15 acre of jurisdictional wetlands would be permanently impacted due to reconstruction of the northern channel jetty, and reinforcement of the southern channel jetty.

**Action:**

Pending
