**Project Name:**

Maintenance of the Palm Canyon Flood Control Facility Project

**Receiving Water:**

Palm Canyon Wash

**Location:**

City or Area: Palm Springs, County: Riverside

Longitude/Latitude 116.531099 W / 33.777800 N, Township/Range 4South /4East

**Project Description:**

The purpose of the project is to maintain the Palm Canyon Flood Control Facility according to the maintenance baseline so that it can function as designed. Maintenance would take place on an as needed basis, and would consist of patrolling (driving), mowing, clearing, removal of accumulated sediment, filling of washouts or irregularities in the channel/wash invert, regrading of maintenance roads, regrading of channel/wash to convey flows and protect the district's channel improvements. Also the regrading of invert to allow for safe mowing operations, trash pickup, graffiti abatement, spraying of weedy vegetation with EPA-approved herbicides, replacement/restoration of any rocks slope protection or concrete paving.

**Action:**

Pending
