BACKGROUND

On November 2, 2020, the State Water Board took the first step in designating Las Deltas MWS as a water system in need of an administrator because it has not consistently provided an adequate supply of affordable, safe drinking water to its customers. Las Deltas MWS has active compliance orders for violation of the Maximum Contaminant Level for disinfection byproducts and violation of maintaining the minimum pressure requirements of 20 pounds per square inch (psi) at user's service connection at all time.

The State Water Board proposes appointing an administrator for Las Deltas MWS to manage the water system. All actions taken by an administrator are required to be in the best interest of the community served by the water system and include the following:

- Developing access to an adequate supply of safe and affordable drinking water; and
- Holding public meetings at least every three months.

E. JOAQUIN ESQUIVEL, CHAIR | EILEEN SOBECK, EXECUTIVE DIRECTOR

Any ratepayer, renter, or property owner who receives water from a designated water system can submit a petition to the State Water Board to reverse or modify an administrator decision or to replace an administrator. A description of this process and the administrator authority is contained in Health and Safety Code Section 116686 and in the State Water Board's Administrator Policy Handbook (Sept. 2019) at https://bit.ly/SAFER_Administrator_Handbook.
