

## **Statement of Changes Without Regulatory Effect**

The State Water Resources Control Board (State Board) proposes the following non-substantive changes to Title 22 of the California Code of Regulations, which will not materially alter any requirement, right, responsibility, condition, prescription, or regulatory element of the California Code of Regulations.

- Amend section 60320.116 (Recycled Municipal Wastewater Contribution (RWC) Requirements), subdivision (d)(2), to reference section 60320.118. Currently, subdivision (d)(2) incorrectly references section 62320.118. That section does not exist.
- Amend section 60320.130 (Alternatives), subdivision (c)(4)(D), to reference section 60320.112. Currently, subdivision (c)(4)(D) incorrectly references section 62320.112. That section does not exist.
- Amend section 60320.208 (Pathogen Microorganism Control), subdivision (b), by changing the current reference to subdivision (e) to reference subdivision (d). Subdivision (b) assigns a log-reduction credit for demonstrated retention time underground, which is described in subdivision (d), not subdivision (e).
- Amend section 60320.216 (Recycled Municipal Wastewater Contribution (RWC) Requirements), subdivision (d)(2), to reference section 60320.218. Currently, section 60320.216 incorrectly references section 62320.218. That section does not exist.
