

California Department of Water Resources
Safe Drinking Water Office
Prop 50 Grant Programs

Everyone Deserves Safe Drinking Water

Chapter 6(b) Contaminant Removal

**New Technologies Needed
To Clean California's Drinking
Water of these Contaminants**

Petroleum Products
(MTBE & BTEX)

NDMA

Perchlorate

Radionuclides

Pesticides & Herbicides

Heavy Metals

(arsenic, mercury, chromium, etc)

**Pharmaceuticals and
Endocrine Disruptors**

Chapter 6(c) UV & Ozone Disinfection

**Get a Grant to Fund Projects
using UV or Ozone to
Disinfect your Drinking Water**

**Do you have a MCL
compliance violation, surface
water treatment microbial
requirements, or mandatory
disinfection required by the
CDPH or local agency?**

**Can you demonstrate your
water system can
operate and maintain the
treatment facility?**

*The project must address an existing
problem in California*

*Ozone projects must be designed to
minimize residual byproducts*

Grants up to \$5,000,000 available!

- Funds available for Public Water Systems and Public Entities
 - *One to One Match of nonstate funds required*
- Designated funds are being held for Disadvantaged Communities
- No match required for disadvantaged communities or small water systems
