

Stakeholder Advisory Committee

SCCWRP worked with the State Water Resources Control Board to form a Stakeholder Advisory Committee that represents a cross-section of laboratory service providers (from both the municipal and private sectors) and users of data from these laboratories. The Stakeholder Advisory Committee helps to ensure the quality, fairness, and transparency of the review process by assisting SCCWRP in three areas:

1. Ensure the people that were considered to serve on the Panel are both highly qualified and free from bias on the issues to be considered.
2. Assist in formulating charge questions to the Review Panel.
3. Help develop the agenda and identify speakers that the Review Panel should hear from at their meetings.

The members of the Stakeholder Advisory Committee are:

Socorro Baldonado, Metropolitan Water District

Andy Eaton (Chair), Eurofins Eaton Analytical Inc.

Bruce Godfrey, Curtis & Tompkins Labs

Anthony Gonzalez, Sacramento County Public Health Laboratory

Calvin Liu, Contra Costa Water District

Allison Mackenzie, Babcock Laboratories

Pete Ode, California Department of Fish and Wildlife

Terry Powers, South Tahoe Public Utility District

Pamela Schemmer, Test America, Inc.

Josie Tellers, City of Davis

Cindy Ziernicki, Helix Water District
