TNI "Light"

Christine Sotelo

TNI "Light"

- TNI as a base

- Remove or modify pieces that are problematic for laboratories

- Virginia is an example
  - 350 laboratories in the "light" program

- Comparable certifications
  - DW, WW, HW

- You asked what changes Virginia made

Virginia's modifications to the 2003 NELAC standard

- Technical Manager / Laboratory Manager qualifications

- Management review

- Document Control

Virginia's implementation of TNI "Light"

Virginia identified the main areas laboratories needed assistance to meet the Standards:

- Management reviews

- Data integrity training/systems implementation

- Document control systems and writing documents such as SOPs for administrative/QA system procedures

- Corrective action systems/processes/root cause analysis

- Sample handling

- Standards traceability

- Internal audits
