The State Water Resources Control Board (State Water Board) invites you to attend a second public meeting to learn about the potential consolidation of Orosi Public Utility District (Orosi PUD) and Cutler Public Utility District (Cutler PUD).

BACKGROUND

The State Water Board has issued compliance orders to Cutler PUD for the violation of the 1,2,3-trichloropropane (1,2,3-TCP) and nitrate maximum contaminant levels. In May 2023, the State Water Board initiated the mandatory consolidation process between Cutler PUD and Orosi PUD. The process includes a period for Cutler PUD and Orosi PUD to negotiate consolidation voluntarily and for two public meetings held by the State Water Board. This is the second public meeting in the consolidation process and is an opportunity to inform all customers of the potential consolidation and to allow for public comment.

LANGUAGE SERVICES

This meeting will be offered in English with Spanish interpretation services. To request translation of a written document, interpretation services for the meeting, or sign language services, please use one of the following options at least one week before the meeting date.
