BACKGROUND

This meeting is part of the State Water Board's Safe and Affordable Funding for Equity and Resilience (SAFER) program. The SAFER program was designed to ensure Californians who lack safe and affordable drinking water receive it as quickly as possible. The SAFER program is helping water systems achieve this goal through a set of tools, funding sources, regulatory authorities, and community outreach and education. The SAFER Advisory Group is a consultative body that advises the State Water Board on development of the Fund Expenditure Plan and other key analyses and policies as needed.
