

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
LAHONTAN REGION

BOARD ORDER NO. R6V-2003-0028A2  
WDID NO. 6B360207001

AMENDED WATER RECYCLING REQUIREMENTS

FOR

CITY OF VICTORVILLE  
WESTWINDS GOLF COURSE

San Bernardino County

The California Regional Water Quality Control Board, Lahontan Region (Water Board) finds:

1. User – Producer - Distributor

The City of Victorville Westwinds Golf Course hereafter "User," proposes to receive title 22 tertiary treated recycled water from the City of Victorville Southern California Logistics Airport Central Wastewater Treatment Plant (SCLA CWTP), hereinafter "Producer". The City of Victorville is the "Distributor" for conveying recycled water from the SCLA CWTP to the User. For purposes of this Order, "recycled water" is defined in the California Water Code (CWC), section 13050(n) as water that as a result of waste treatment, is suitable for a direct beneficial use or a controlled use that would not otherwise occur and is therefore considered a valuable resource. Recycled water defined in section 13050(n) and "reclaimed water" as used in CWC section 13523 are synonymous.

2. Other Related Requirements

Board Order No. R6V-2003-028, adopted on June 11, 2003, authorizes the Victor Valley Wastewater Reclamation Authority (VWRA), as a producer, to provide title 22 tertiary treated wastewater from the Victor Valley Municipal Wastewater Treatment Plant for use at the Westwinds Golf Course. The Order also authorizes the City of Victorville, as the User, to receive VWRA supplied recycled water for irrigation use at the City of Victorville Westwinds Golf Course.

Board Order No. R6V-2010-0023, adopted on June 9, 2010, authorizes the City of Victorville, to produce and provide title 22 tertiary treated wastewater from the SCLA CWTP for use at both the Westwinds Golf Course and the High Desert Power Plant.

3. Reason for Action

The purpose of this Amendment is to authorize the City of Victorville Westwinds Golf Course to receive and use title 22 recycled water supplied from the City of Victorville SCLA CWTP. CWC, section 13523 provides the authority by which the Water Board can prescribe water reclamation (recycling) requirements for users and/or producers of recycled water, following consultation with the California Department of Public Health (CDPH).

California Code of Regulations (CCR), title 22, section 60323 requires the submittal of an Engineering Report to the CDPH for any proposed wastewater reuse. On February 25, 2010, the Producer submitted an Engineering Report for production of recycled water from the SCLA CWTP. In the report, the Producer identified Westwinds Golf Course as a user. CDPH provided its comments and accepted the Engineering Report on April 8, 2010.

4. Recycled Water Transmission and Distribution

The City of Victorville will deliver recycled water from the SCLA CWTP to the Westwinds recycled water elevated tank through a recycled water pipeline. The delivery of recycled water to the Westwinds Golf Course is through the City's recycled water distribution system.

5. Description of Producer's Treatment Plant

The City of Victorville will produce disinfected tertiary wastewater from the SCLA CWTP. The treated wastewater must meet CCR title 22 requirements for irrigation use.

6. California Environmental Quality Act (CEQA)

The continued operation of this existing facility with minor modifications under these amended Water Recycling Requirements is exempt from the provisions of the CEQA (Public Resources Code, section 21000 et seq.) in accordance with title 14, CCR, section 15301.

7. Notice of Interested Parties

The Water Board has notified the User, Producer, Distributor, and interested persons of its intent to amend Water Recycling Requirements for the Westwinds Golf Course.

8. Consideration of Public Comments

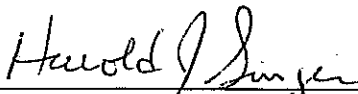

The Water Board, in a public meeting, heard and considered all comments pertaining to the recycled water use project.

**IT IS HEREBY ORDERED** pursuant to CWC, sections 13523, 13263, and 13267 that the User must comply with the following amended requirements:

Replace the language of item "C" in Section III. of Board Order No. R6V-2003-0028 as follows. Add new items "K", "L" and "M".

- III. General Requirements and Prohibitions for Recycled Water Use Applicable to Both the Producer and User
- C. A copy of these requirements shall be maintained at the Producer's Facilities and at the Westwinds Golf Course to be available at all times to operating personnel.
  - K. All requirements contained in Board Order No. R6V-2003-028 and R6V-2003-028A1 remain in effect.
  - L. Pursuant to CWC, section 13267, sub-division (b), the User must comply with the Monitoring and Reporting Program of Board Order No. R6V-2003-028.
  - M. The Water Board may change all or any portion of this Order upon legal notice to and after opportunity to be heard is given to all concerned parties.

I, Harold J. Singer, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Lahontan Region, on October 14, 2010.

---

HAROLD J. SINGER
