

Many Board and Committee members have worked hard this year supporting an amendment to the Tahoe Basin Plan that allows limited use of aquatic herbicides in Lake Tahoe (and, therefore, in the Keys). We were pleased when the Lahontan Water Board passed the amendment by unanimous vote at an open Lahontan Board meeting that many of us attended.

But it's not over yet. Now we need to urge the State Water Board to do the same regarding this proposed amendment. We need your support in the form of an email,

HERE IS MY APPROVAL OF THIS AMENDMENT
