ADOPTED WASTE DISCHARGE REQUIREMENTS AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT — CITY OF OXNARD, OXNARD WASTEWATER TREATMENT PLANT (NPDES NO. CA0054097, CI NO. 2022)

Dear Mr. Norris:

Our letter dated April 16, 2008, transmitted the revised tentative waste discharge requirements for renewal of your permit to discharge wastes under the National Pollutant Discharge Elimination System (NPDES).

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on May 1, 2008, reviewed the tentative requirements, considered all comments received, and adopted Order No. R4-2008-0029 (copy enclosed) for your waste discharge. Order No. R4-2008-0029 serves as permit under the National Pollutant Discharge Elimination System (NPDES) and expires on April 10, 2013. Section 13376 of the California Water Code requires that an application for a new permit must be filed at least 180 days before the expiration date.

You are required to implement the *Monitoring and Reporting Program (MRP)* on the effective date of this permit. The dates that the monitoring and annual reports must be received at the Regional Board Office are provided in the *MRP*. Submit all monitoring reports and annual reports to the Regional Board, Attn: Information Technology Unit. When submitting monitoring, technical reports, or any correspondence regarding the discharge under Order No. R4-2008-0029 to the Regional Board, please include a reference to our *Compliance File No. CI 2022* to assure that the reports are directed to the appropriate staff and file. Please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.

The adopted permit will be sent only to the Discharger. However, these documents are available on the Regional Board's website for your review. The Regional Board's web address is www.waterboards.ca.gov/losangeles/.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
