Dear Mr. Rynn:

ADOPTED WASTE DISCHARGE REQUIREMENTS AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT – CITY OF BURBANK, BURBANK WATER RECLAMATION PLANT (NPDES NO. CA0055531, CI NO. 4424)

Our letter dated March 2, 2010, transmitted revised tentative Waste Discharge Requirements for your discharge of treated municipal and industrial wastewater from the Burbank Water Reclamation Plant (WRP) into the Burbank Western Channel.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on April 1, 2010, reviewed the revised tentative requirements, considered all factors in the case, and adopted Order No. R4-2010-0058 (copies attached) with one change, to correct a typographical error referencing State Board Order No. 2008-0046 throughout the NPDES Order and the Fact Sheet. Order No. R4-2010-0058 serves as your NPDES permit, for the Burbank WRP and expires on October 10, 2011. Section 13376 of the California Water Code requires that a complete application for a new permit must be filed at least 180 days before the expiration date.

When submitting monitoring or technical reports to the Regional Board, as required by your "Monitoring and Reporting Program", please send them ATTN: Information Technology Unit and include a reference to "Compliance File No. 4424" for the Burbank WRP. This will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

We are sending the final copy of Order No. R4-2010-0058 only to the City of Burbank, to save printing and postage costs. For those on the mailing list, an electronic copy will be emailed to you.
