Whittier, CA 90607-4998

REVISED STORMWATER MONITORING PROGRAMS - CALABASAS LANDFILL, AGOURA HILLS, CA (FILE NO. 60-118; ORDER NO. R4-2009-0088, CI-4992, GEOTRACKER GLOBAL I.D. L10005926913) AND SCHOLL CANYON LANDFILL, GLENDALE, CALIFORNIA (FILE NO. 60-117, ORDER NO. 2001-132, CI-2846, GEOTRACKER GLOBAL ID L10009414153)

Dear Ms. Bax:

Reference is made to your letter to the Los Angeles Regional Water Quality Control Board (Regional Board), dated May 18, 2015, regarding stormwater monitoring programs being implemented by the County Sanitation Districts of Los Angeles County (Discharger) for the Calabasas and Scholl Canyon landfills. The Discharger conducts stormwater monitoring at the landfills pursuant to requirements of Regional Board Order No. R4-2011-0052 (*Amendments to Waste Discharge Requirements for Disposal and Onsite Use of Non-Designated / Non-Hazardous Contaminated Soils and Related Wastes at Municipal Solid Waste Landfills*) and the State Water Resources Control Board (State Board) General Industrial Stormwater Permit, Order No. 97-03-DWQ. Order No. R4-2011-0052, when adopted, expanded the list of monitoring constituents and qualifying storm events (QSEs) required under Order No. 97-03-DWQ for Region landfills that accepted contaminated soils or related wastes in an effort to protect against a heightened threat to surface water quality.

On July 1, 2015, a revised General Industrial Stormwater Permit, Order No. 2014-0057-DWQ, will come into effect. Because the stormwater monitoring requirements in Order No. R4-2011-0052 are not entirely comparable to those in Order No. 2014-0057-DWQ, the Discharger is requesting stormwater monitoring at the landfills be conducted pursuant to revised General Industrial Stormwater Permit.

We have reviewed your letter and believe that the proposed revisions of your stormwater monitoring programs meet the requirements of Regional Board Order No R4-2011-0052. Your request that stormwater monitoring at the landfills be conducted pursuant to requirements Order No. 2014-0057-DWQ is herein approved.

If you have any questions regarding this matter, please contact Dr. Enrique Casas, Project Manager, at (213) 620-2299.

Sincerely,

Samuel Unger, P.E.
Executive Officer
