Dear Mr. Zaldivar:

ADOPTED AMENDMENT OF WASTE DISCHARGE REQUIREMENTS (WDRs) AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS – CITY OF LOS ANGELES, LOS ANGELES-GLENDALE WATER RECLAMATION PLANT (NPDES NO. CA0053953, CI NO. 5675)

Our letter dated March 2, 2010, transmitted the revised tentative waste discharge requirements amending your permit to discharge wastes under the National Pollutant Discharge Elimination System (NPDES).

Pursuant to Division 7 of the California Water Code, this Regional Water Board at a public hearing held on April 1, 2010, reviewed the revised tentative requirements, considered all the factors in the case, and adopted Order No. R4-2010-0059 (copies enclosed) for your amended waste discharge. Order No. R4-2010-0059 serves as your NPDES permit and expires on November 13, 2011. Section 13376 of the California Water Code requires that an application and Report of Waste Discharge for a new permit must be filed at least 180 days before the expiration date.

When submitting monitoring or technical reports to the Regional Board, as required by your "Monitoring and Reporting Program", please send them ATTN: Information Technology Unit and include a reference to "Compliance File No. 5675" for the Los Angeles-Glendale WRP. This will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

The complete final Order and Permit will be sent only to the Discharger. However, these documents are available on the Regional Water Board's website for your review. The Regional Water Board's web address is www.waterboards.ca.gov/losangeles/.
