Dear Ms. Kondratchuk:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT – ATLANTIC RICHFIELD COMPANY, ARCO SERVICE STATION #1057, 6100 FRANKLIN AVENUE, HOLLYWOOD, CALIFORNIA (NPDES NO. CAG834001, CI-7282)

In our letter dated May 15, 2003, we informed you that the subject discharge is regulated under Order No. R4-2002-0125, *Waste Discharge Requirements for Treated Groundwater and Other Wastewaters From Investigation and/or Cleanup of Petroleum Fuel-Contaminated Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on July 11, 2002, which also serves as your NPDES permit.

We have reviewed the July 28, 2005, letter from your consultant, SECOR International Incorporated, which requested termination of coverage under the General Permit. It is our understanding that you have not extracted nor discharged groundwater from the subject facility. Furthermore, you do not plan to conduct groundwater extraction in the future as a remediation alternative.

On August 4, 2005, Board staff inspected the project site and verified that there is no discharge of groundwater from the site to the storm drain. Since there is no discharge of groundwater from the subject site, coverage under Board Order No. R4-2002-0125, General NPDES Permit No. CAG834001 for the subject site is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain waste discharge requirements.
