No. 7099 3220 0000 1743 7239

Dear Ms. Oblea:

### **WASTE DISCHARGE REQUIREMENTS – VOPAK TERMINAL LOS ANGELES, INC., INLAND TERMINAL FACILITY, WILMINGTON, CA. (NPDES NO. CA0063177, CI NO. 7298)**

Our letter dated September 11, 2008, transmitted a tentative order for renewal of your permit to discharge wastes under the National Pollutant Discharge Elimination System (NPDES) Program.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on November 20, 2008, reviewed the tentative Waste Discharge Requirements (WDRs), considered all factors in the case, and adopted Order No. R4-2008-0124 (copy attached) relative to this waste discharge. Order No. R4-2008-0124 serves as your permit under the NPDES program and expires on October 10, 2013. Section 13376 of the California Water Code requires that an application for a new permit must be filed at least 180 days before the expiration date.

You are required to implement the *Monitoring and Reporting Program* (MRP) on the effective date of Order No. R4-2008-0124. Your first monitoring report for the December 20 to December 31, 2008, reporting period is due by February 1, 2009. All monitoring reports should be sent to the Regional Board, Attn: Information Technology Unit.

When submitting monitoring, technical reports, or any correspondence regarding the discharge under Order No. R4-2008-0124 to the Regional Board, please include a reference to *Compliance File No. CI 7298 and NPDES No. CA0063177*, which will assure that the reports are directed to the appropriate file and staff. Please do not combine your discharge monitoring reports with other reports. Please submit each type of report as a separate document.

We are sending the final copy of the permit only to the Discharger. For those on the mailing list who would like access to a copy of the final permit, please go to the Regional Board's website <http://www.waterboards.ca.gov/losangeles/>.
