Dear Mr. Hundley:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT – WORLD OIL MARKETING, STATION NO. 27, 5234 WEST ADAMS BOULEVARD, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-7788

Dear Mr. Hundley:

The subject discharge is regulated under Order No. R4-2003-0111, *Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

In a letter dated December 20, 2006, you requested termination of the subject permit because you no longer discharge groundwater from the site. An inspection conducted by staff from this office on January 17, 2007, found that there is no discharge of groundwater at the site to surface waters.

The discharger has ceased the groundwater discharge to surface waters at the site. An NPDES permit is not necessary and coverage under Board Order No. R4-2003-0111 for the subject site is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters become necessary, you must file a Report of Waste Discharge with this office and obtain Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters. If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Jonathan S. Bishop
