Dear Dr. Lei:

**TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—GOLDEN STATE WATER COMPANY—SENTNEY PLANT FILTRATION UNIT, 2920 SENTNEY AVENUE, CULVER CITY, CALIFORNIA (NPDES NO. CAG994003, CI-7994)**

In our letter dated April 28, 2004, we informed you that the subject discharge is regulated under Order No. R4-2004-0058, *Waste Discharge Requirements for Discharges of Nonprocess Wastewater to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on April 1, 2004, which also serves as your NPDES permit.

We have received and reviewed your June 9, 2009, letter requesting termination of your coverage under the General Permit because you have not discharged any filter backwash water from the subject facility since the General Permit was issued.

On June 17, 2009, Board staff inspected the project site and verified that there is no discharge of filter backwash water from the subject site to the storm drain. Since there is no discharge of filter backwash water from the site, coverage under Board Order No. R4-2004-0058, General NPDES Permit No. CAG994003, for the subject facility is hereby terminated except for enforcement purposes.

Please note that if future discharge of any filter backwash water to surface water become necessary at the site, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Dr. James Tang at (213) 576-6696.

Sincerely,

  
Tracy J. Egoscue  
Executive Officer
